## OBJECTIVE

I am looking for a company or rather to be employed somewhere where I can excel by giving my best and all as far as IT and my knowledge is concerned. My dream and the very reason I chose IT to start with was to master IT which in the now and future so as to help willing companies reach their full potential whilst at the same time I and improve myself and learn all I can from that company. So I am ready to give my best, blood and soul to any company that is ready to get the ball rolling in IT be it AI, softwares, data entry, etc because I am my hands are itching to get to work. I want to make that one IT company the center of IT excellence.
